

**„Started with an idea, stayed for the dream“**

Do you also dream of introducing your music to thousands of listeners and being heard?

That was exactly the wish of 4 young adults from Osnabrück, Germany. They joined forces and founded the music label CNTPD Records on 4/1/2021.

"CNTPD ['sɛntɪ,pɪd] Records" is a music label & management, which aims to give artists the opportunity to publish and market music. Additionally, CNTPD Records is to provide various music, media, and marketing services.

With over 800,000 streams on Spotify and support from Blossom DJ, DJs From Mars, Twoloud, Calvo, Future House Cloud, Enormous Tunes & Bombs Away, they have been able to gain a lot of attention on their music.
