

P.S.Q. is a hip-hop project with its focus on P.S.Q. as a producer and also as a singer. Mysterious melodies and deep lyrics underline P.S.Q.'s songs.

With over 5,000 streams and driven by his own path, P.S.Q. embodies his own experiences with self-built beats and, what is more, with lyrics that can appeal to anybody.

P.S.Q. quickly found out that he wants to expand his horizon and try out new genres. With that, he decided to make his own Hip-Hop beats, got slowly into songwriting and, ultimately, into singing.

Right now, P.S.Q. is working on his own music label called "CNTPD ['sɛntɪ ,pid] Records", which gives artists the possibility to release music. Moreover, CNTPD Records provides services in the area of music, photography and videography. For 2021 P.S.Q. planned his very first EP which will be called "Lessons" and will be a showcase of his different influences.
